Augie Doggie AND Doggie Daddy

All is at peace in the 'Doggie' household. The world's best father 'Doggie Daddy' is stretched out having his mid-day forty winks, whilst his son 'Augie Doggie', being the bravest, greatest son of all is in charge of making sure 'Doggie Daddy' has a peaceful undisturbed snooze, making his father proud.

At least... that's what's supposed to happen, but as we all know, life for the world's best father and son team is never quite so simple.

This is the start to Augie's mice chasing, bug racing fun!

Your task is to collect all the pests on each floor of the house and take them outside. This is not as easy as it seems because you must do this without disturbing Doggie Daddy. The mice have set obstacles in your path such as barrels & boomerangs.

On some levels, the mice send items crashing to the floor. You must catch these before they hit the floor because if you don't the noise will wake Doggie Daddy. Let too many fall, and you will face a telling off from your Father.

GAME INFORMATION

The game is set out over 4 levels, each level being a floor of the house. The levels are: BASEMENT - DOWNSTAIRS - UPSTAIRS - ATTIC. In order to complete each level you must collect 10 pests from that level. However, you may only carry 5 at a time. When you have caught 5 pests, they must be taken out of the house by going to the left side of each level and then set free. For example, in the basement, walk left from the starting point by the stairs. You will then appear outside the house and you will release any pests that you may have caught.

You can also collect bonus items such as cheese, a watch (This gives you extra time) and some of Doggie Daddy's belongings. Pick these up by pulling down (Ducking) whilst over the object.
